

# GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT DATA

CONVENE. CATALYZE. CONNECT

# Measuring the well-being of migrants

# Data to measure wellbeing

## Ask people

(Surveys: Gallup, DHS)

- Sampling
- Frequency
- Cost

## Listen as people talk

(social media: facebook, twitter)

- Privacy
- Representativeness
- methodologies

## Observe what people do

(CDR, financial transactions)

- Privacy
- Representativeness
- methodologies

# New data sources for migration data – and for migrants

- Mobiles
  - Track social bonds
  - Track movements
  - Share information
- Satellites
  - Track movement
  - Track settlements

# How to realize these benefits?

Methodology and technical challenges

Legal and regulatory challenges

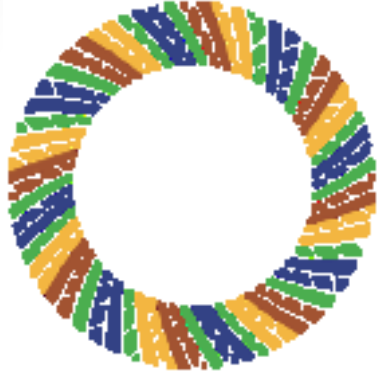

Consent, support and political challenges

# TECHNICAL AND POLITICAL

**Zoom in:** Technical issues increasingly being solved – and infrastructure for solving them is emerging

**Zoom out:** Political barriers to progress – ownership, control, rights, resources
